

MINI-GRANT – PURPOSE AND INTENT

The Vision of the New Jersey Council on Developmental Disabilities (the Council) is that all individuals with developmental disabilities are contributing members of their neighborhoods and communities; make real choices and have control over their own lives; have the freedom to strive, excel, and make mistakes; are in a position to achieve personal goals, are in a position to affect policy and process decisions that affect their lives; and have the same rights, privileges, responsibilities, and opportunities of citizenship as does any other New Jersey resident.

In FY-2007, the **Council** introduced its **mini-grant** process to facilitate innovative, localized activity that benefits people with developmental disabilities and their families. The activity funded through a mini-grant effort must effectively fulfill the Council's vision of leading directly to **independence, productivity and/or integration** for individuals with developmental disabilities.

Applicants must identify a need, a strategy for addressing that need, and the activity or activities they will undertake to accomplish stated outcomes. Mini-grants are reviewed by the Council's Executive Committee every six to eight weeks and are awarded based on consideration of the availability of funds, the innovation of the proposed activity, and the extent that to which the activity will further the Council's vision. The cost-effectiveness of the proposed activity and whether the project can be replicated by others is also considered.

Applicants must indicate the source and amount of a 25% match (in non-poverty areas) or 10% match (in poverty areas). This requirement may be met with a cash or in-kind match. See Council matching guidelines at www.njcdd.org.

Applicants may submit a mini-grant request at any time. The maximum mini-grant allowed is \$5,000 during any two year period per applicant.

Applicants are advised to read the Council's five-year plan and review recent programs and grant projects at www.njcdd.org
